poet who led the Transcendentalist movement of the mid 19th century He was seen as a champion of individualism and a prescient critic of the countervailing pressures of society and he disseminated his thoughts through dozens of published essays and more than 1 500 public lectures across the United States Emerson gradually moved away from the religious and social beliefs of his contemporaries formulating and expressing the philosophy of Transcendentalism in his 1836 essay *Nature* Following this ground breaking work he gave a speech entitled *The American Scholar* in 1837 which Oliver Wendell Holmes Sr considered to be America's Intellectual Declaration of Independence

First and Second Series Ralph Waldo Emerson, 2012-01 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

Ralph Waldo Emerson: Essays and Lectures (LOA #15) Ralph Waldo Emerson, 1983-11-15 Our most eloquent champion of individualism Emerson acknowledges at the same time the countervailing pressures of society in American life Even as he extols what he called the great and creative self he dramatizes and records its vicissitudes Here are all the indispensable and most renowned works including *The American Scholar* our intellectual Declaration of Independence as Oliver Wendell Holmes called it *The Divinity School Address* considered atheistic by many of his listeners the summons to Self Reliance along with the more embattled realizations of *Circles* and especially *Experience* Here too are his wide ranging portraits of Montaigne Shakespeare and other representative men and his astute observations on the habits lives and prospects of the English and American people This volume includes Emerson's well known *Nature Addresses and Lectures* 1849 his *Essays First Series* 1841 and *Essays Second Series* 1844 plus *Representative Men* 1850 *English Traits* 1856 and his later book of essays *The Conduct of Life* 1860 These are the works that established Emerson's colossal reputation in America and found him admirers abroad as diverse as Carlyle Nietzsche and Proust The reasons for Emerson's influence and durability will be obvious to any reader who follows the exhilarating exploratory movements of his mind in this uniquely full gathering of his work Not merely another selection of his essays this volume includes all his major books in their rich entirety No other volume conveys so comprehensively the exhilaration and exploratory energy of perhaps America's greatest writer LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing and keeping permanently in print America's best and most significant writing The Library of America series includes more than 300 volumes to date authoritative editions that average 1 000 pages in length feature cloth covers sewn bindings and ribbon markers and are printed on premium acid free paper that will last for centuries
