Dooley,David Fokke Ihno Folkerts-Landau,Peter M. Garber,2003 The economic emergence of a fixed exchange rate periphery in Asia has reestablished the United States as the center country in the Bretton Woods international monetary system We argue that the normal evolution of the international monetary system involves the emergence of a periphery for which the development strategy is export led growth supported by undervalued exchange rates capital controls and official capital outflows in the form of accumulation of reserve asset claims on the center country The success of this strategy in fostering economic growth allows the periphery to graduate to the center Financial liberalization in turn requires floating exchange rates among the center countries But there is a line of countries waiting to follow the Europe of the 1950s 60s and Asia today sufficient to keep the system intact for the foreseeable future      The Academy of Management Review Academy of Management,1989
