Fundamentals of Fire Fighter Skills

International Association of Fire Chiefs, 2009 With the release of the Second Edition, Jones and Bartlett Publishers, the National Fire Protection Association and the International Association of Fire Chiefs have joined forces to raise the bar for the fire service once again. Safety is *Fundamentals*. The Second Edition features a laser like focus on fire fighter injury prevention including a dedicated chapter on safety. Reducing fire fighter injuries and deaths requires the dedicated efforts of every fire fighter of every fire department and of the entire fire community working together. It is with this goal in mind that we have integrated the 16 Fire Fighter Life Safety Initiatives developed by the National Fallen Fire Fighter Foundation into Chapter 2, Fire Fighter Safety. In most of the chapters, actual National Fire Fighter Near Miss Reporting System cases are discussed to drive home important points about safety and the lessons learned from those real life incidents. It is our profound hope that this textbook will contribute to the goal of reducing line of duty deaths by 25 percent in the next 5 years. *Fundamentals of Fire Fighter Skills* Second Edition thoroughly supports instructors and prepares students for the job. This one volume text meets and exceeds the Fire Fighter I and II professional qualifications levels as outlined in the 2008 edition of NFPA 1001 Standard for Fire Fighter Professional Qualifications. It also covers all of the Job Performance Requirements (JPRs) listed in the 2008 edition of NFPA 472 Standard for Competence of Responders to Hazardous Materials, Weapons of Mass Destruction, Incidents at the awareness and operations levels including Section 6.2 Mission Specific Competencies, Personal Protective Equipment and Section 6.6 Mission Specific Competencies, Product Control.
