**Teaching towards Democracy with Postmodern and Popular Culture Texts** Patricia Paugh, Tricia Kress, Robert Lake, 2014-11-26. This edited volume supports implementation of a critical literacy of popular culture for new times. It explores popular and media texts that are meaningful to youth and their lives. It questions how these texts position youth as literate social practitioners. Based on theories of Critical and New Literacies that encourage questioning of social norms, the chapters challenge an audience of teachers, teacher educators, and literacy-focused scholars in higher education to creatively integrate popular and media texts into their curriculum. Focal texts include science fiction, dystopian, and other youth-central novels, picture books that disrupt traditional narratives, graphic novels, video games, other arts-based texts, film, novel hybrids, and even the lives of youth readers themselves as texts that offer rich possibilities for transformative literacy. Syllabi and concrete examples of classroom practices have been included by each chapter author.

**Climate Change in Popular Culture** James Craig Holte, 2022-06-17. An invaluable resource for general readers investigating climate change, this book examines the impact of climate change on popular culture and analyzes how writers and directors treat the disasters caused by climate change in their novels and films. *Climate Change in Popular Culture: A Warming World in the American Imagination* is the first study that includes analyses of both fiction and popular nonfiction works devoted to climate change. In addition, the book examines a number of classic works from the perspective of the growing field of climate change literature and includes a brief history of climate change science as well as basic scientific definitions, all intended for general readers. The text provides an introduction to the science, politics, and economics of climate change. It also includes both historical overviews and potential probable futures projected by leading climate scientists and environmental writers. In addition, the text looks at how such creative writers and directors as Margaret Atwood, John Steinbeck, Paulo Bacigalupi, Kim Stanley Robinson, T. C. Boyle, Michael Crichton, and Octavia Butler, among others, have used the disasters caused by climate change in their work.
