volume share the assumption that popular narrative when viewed with an evolutionary lens offers an incisive index into human nature In theory narrative art could take a near infinity of possible forms In actual practice however particular motifs plot patterns stereotypical figures and artistic devices persistently resurface indicating specific predilections frequently at odds with our actual living conditions Our studies explore various media and genres to gauge the impact of our evolutionary inheritance in interdependence with the respective cultural environments on our aesthetic appreciation As they suggest research into mass culture is not only indispensable for evolutionary criticism but may also contribute to our understanding of prehistoric selection pressures that still influence modern preferences in popular narrative Contributions by David Andrews James Carney Mathias Clasen Brett Cooke Tam s D vid Barrett Tom Dolack Kathryn Duncan Isabel Behncke Izquierdo Joe Keener Alex C Parrish Todd K Platts Anna Rotkirch Judith P Saunders Michelle Scalise Sugiyama Dirk Vanderbeke and Sophia Wege

Hope and Kinship in Contemporary Fiction Gero Bauer,2024-01-11 Explores the emphasis that contemporary novels films and television series place on the present arguing that hope emerges from the potentiality of the here and now rather than the future and as intimately entangled with negotiations of structures of belonging Taking its cue from an understanding of hope as connoting an organizing temporality one which is often presumed to be projecting into a future Hope and Kinship in Contemporary Fiction challenges this understanding arguing that hope emerges in practices of relationality in the present disentangling hope from a necessary correlation with futurity Through close readings of contemporary works including The Road The Walking Dead Cloud Atlas Sense8 The People in the Trees and A Little Life Gero Bauer investigates how these texts explore structures of kinship as creative and affective practices of belonging and care that claim spaces beyond the heterosexual reproductive nuclear family In this context fictional figurations of the child often considered the bearer of the future are of particular interest Through these interventions into definitions of and reflections

on fictional manifestations of hope and kinship Bauer's analyses intersect with queer theory new materialism and postcritical approaches to literature and cultural studies moving towards counterintuitively hopeful readings of the present moment

Stewardship and the Future of the Planet Rachel Carnell, Chris Mounsey, 2022-07-22 This volume examines historical views of stewardship that have sometimes allowed humans to ravage the earth as well as contemporary and futuristic visions of stewardship that will be necessary to achieve pragmatic progress to save life on earth as we know it The idea of stewardship human responsibility to tend the Earth has been central to human cultures throughout history as evident in the Judeo Christian Genesis story of the Garden of Eden and in a diverse range of parallel tales from other traditions around the world Despite such foundational hortatory stories about preserving the earth on which we live humanity in the Anthropocene is nevertheless currently destroying the planet with breathtaking speed Much research on stewardship today in the disciplines of geography urban studies oceans research and green business practice offers insights that should help address the ecological challenges facing the planet Simultaneous scholarship in the humanities and other fields reminds us that the damage done to the planet has often been carried out in the name of tending the land In order to make progress in environmental stewardship scholars must speak to each other across the disciplinary boundaries as they do in this volume

yet hopeful narrative of life in a world reshaped by disaster. This post-apocalyptic saga follows the lives of ordinary people thrust into extraordinary circumstances where the collapse of society forces them to confront the stark realities of survival. The story begins with *The Collapse*, a catastrophic event that shatters the world's infrastructure and thrusts humanity into chaos. As the remnants of civilization crumble, the survivors among them—the story's protagonist, James Harper—must navigate a landscape marked by destruction, scarcity, and danger. With society's structures obliterated, the characters grapple with the immediate need to secure food, water, and shelter while facing the psychological toll of their new reality. Throughout the series, the narrative explores the complexities of human nature under extreme conditions. From the fierce battles with nature in the unforgiving West to the moral dilemmas that define what remains of humanity, each chapter delves deeper into the struggles and triumphs of the survivors. As they form tenuous alliances and confront external threats, including hostile survivor groups and the harsh elements, the characters are constantly challenged to balance survival with the remnants of their morality. In *The Last Stand*, the survivors face their greatest challenge yet: a confrontation with a ruthless band of raiders that forces them to make heart-wrenching decisions. This climactic battle tests their resolve and pushes them to the brink, ultimately reshaping their understanding of community, leadership, and hope. As they move from mere survival to the possibility of rebuilding, the series sets the stage for a deeper exploration of what it means to be human in a world where the old rules no longer apply. Through vivid storytelling and richly developed characters, *Aftermath: Tales of Post-Apocalyptic Survival* offers a powerful reflection on resilience, the human spirit, and the enduring hope for a better future.
