**Witch-hunting in Scotland** Brian P. Levack, 2008 Shortlisted for the 2008 Katharine Briggs Award *Witch Hunting in Scotland* presents a fresh perspective on the trial and execution of the hundreds of women and men prosecuted for the crime of witchcraft an offence that involved the alleged practice of maleficent magic and the worship of the devil for inflicting harm on their neighbours and making pacts with the devil. Brian P. Levack draws on law politics and religion to explain the intensity of Scottish witch hunting. Topics discussed include the distinctive features of the Scottish criminal justice system the use of torture to extract confessions the intersection of witch hunting with local and national politics the relationship between state building and witch hunting and the role of James VI Scottish Calvinism and the determination of zealous Scottish clergy and magistrates to achieve a godly society. This original survey combines broad interpretations of the rise and fall of Scottish witchcraft prosecutions with detailed case studies of specific witch hunts. *Witch Hunting in Scotland* makes a fascinating reading for anyone with an interest in witchcraft or in the political legal and religious history of the early modern period

According to historical and

cultural patterns people learn to relate to their bodies This situation reveals contrasts in the way bodily functions and thus health and illness are conceptualized used and valued In fact a person's sexuality covers a particularly conflictive field as it focuses on aspects defined as basic constructed according to sociocultural concepts and therefore modifiable Therefore health promotion understood as a proposal for empowering individuals families and communities about their perception of their life and health within their cultural ethnic religious and care context and influenced by their state of health becomes important To this end we propose the adoption of transdisciplinary approaches that prioritize relational analysis studies in the context of health scenarios for the development of public policies framed in the culture of care its evolution economy and management highlighting the gender perspective
