## Reddit Book Discussions Quick Start:

**Understanding Reddit** Elliot T. Panek, 2021-12-24 This book offers a comprehensive scholarly overview of Reddit one of the most popular and least studied social platforms of the early 21st century. The book inspires new ways of thinking about Reddit considering it from multiple perspectives through a historical lens as a site where identity is forged as a democracy as a community and as a news aggregator and distributor. By bringing theories from computer mediated communication communication studies and sociology to bear on original large scale observational analyses of Reddit's communities this book provides a uniquely comprehensive overview of the platform's first 15 years. Understanding Reddit will help us make sense of how rapidly growing communities function in an era of mass online anonymity. Serving both as a primer on how social behavior on Reddit plays out and as a way of locating it within multiple theoretical traditions the book will offer important insights to scholars and students in the disciplines of communication media studies information science internet and emerging media studies and sociology

**Building Agentic AI** Sinan Ozdemir, 2025-12-08 Transform Your Business with Intelligent AI to Drive Outcomes Building reactive AI applications and chatbots is no longer enough. The competitive advantage belongs to those who can build AI that can respond, reason, plan and execute. Building Agentic AI Workflows Fine Tuning Optimization and Deployment takes you beyond basic chatbots to create fully functional autonomous agents that automate real workflows, enhance human decision making and drive measurable business outcomes across high impact domains like customer support, finance and research. Whether you're a developer deploying your first model, a data scientist exploring multi agent systems and distilled LLMs or a product manager integrating AI workflows and embedding models this practical handbook provides tried and tested blueprints for building production ready systems. Harness the power of reasoning models for applications like computer use, multimodal systems to work with all kinds of data and fine tuning techniques to get the most out of AI. Learn to test, monitor and optimize agentic systems to keep them reliable and cost effective at enterprise scale. Master the complete agentic AI pipeline. Design adaptive AI agents with memory, tool use and collaborative reasoning capabilities. Build robust RAG workflows using embeddings, vector databases and LangGraph state management. Implement comprehensive evaluation frameworks beyond accuracy including precision, recall and latency metrics. Deploy multimodal AI systems that seamlessly integrate text, vision, audio and code generation. Optimize models for production through fine tuning, quantization and speculative decoding techniques. Navigate the bleeding edge of reasoning LLMs and computer use capabilities. Balance cost, speed, accuracy and privacy in real world deployment scenarios. Create hybrid architectures that combine multiple agents for complex enterprise applications.
