House of Horrors Agnieszka Kotwasińska,2023-06-15 This is a study of tumultuous transformations of kinship and intimate relationships in American horror fiction over the last three decades Twelve contemporary novels by ten women writers and two whose work has been identified as women's fiction are grouped into four main thematic clusters haunted houses monsters vampires and hauntings but it is social scripts and concerns linked directly to intimacy and family life that structure the entire volume By drawing attention to how the most intimate of all social relationships the family supports and replicates social hierarchies exclusions and struggles for dominance the book problematises the source of horror The consideration of horror narratives through the lens of familial intimacies makes it possible to rethink genre boundaries to
