Capital One Glassdoor:

The Neurodivergent Job Candidate Marcia Scheiner, Joan Bogden, 2021-11-10 This book provides guidance on recruiting interviewing and onboarding practices that will allow employers to successfully hire neurodivergent professionals into inclusive competitive employment. Today 35% of 18 year olds with an autism spectrum diagnosis attend college yet they have a 75-85% under employment and unemployment rate after graduation. While organizations are looking to expand their diversity and inclusion hiring efforts to include neurodivergent professionals current recruiting and interviewing practices in general are not well suited to this. With over one third of the US population identifying as neurodivergent employers need to address how to attract this talent pool to take advantage of a meaningful segment of the workforce. Readers of this book will gain an understanding of how to guide their organizations through the creation of recruiting interviewing and onboarding processes tailored to neurodivergent professionals in any field. Written by authors with extensive experience working in the corporate world and consulting with Fortune 1000 companies on autism hiring efforts this book is targeted at employers acknowledging their perspective. Structured as a reference guide for busy recruiters hiring managers and supervisors this book can be read in its entirety in relevant sections as needed or used as a refresher whenever necessary. This book also provides a background on the thinking styles of autistic individuals giving the reader a deeper understanding of how to best support neurodivergent jobseekers.
