Social

Reading Cultures on BookTube, Bookstagram, and BookTok Bronwyn Reddan, Leonie Rutherford, Amy

Schoonens, Michael Dezuanni, 2024-04-30 This book examines the reading cultures developed by communities of readers and book lovers on BookTube, Bookstagram, and BookTok as an increasingly important influence on contemporary book and literary culture. It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers. The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices, bookish social media has elevated the agency and visibility of readers and book consumers within literary culture. It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture. Concise and accessible, this introduction to an increasingly central set of literary practices is essential reading for students and scholars of literature, sociology, media, and cultural studies, as well as teachers and professionals in the book and library industries

Boy,Justus Uitermark,2023-12-14 Two billion people around the world use Instagram but so far social scientists have done little research on the platform Despite Instagram s reputation for shallowness the ongoing self presentation it demands confronts users with profound dilemmas Who are we What do we want to show of ourselves What do we aspire to be On Display is a book about how people remake their worlds through social media John D Boy and Justus Uitermark provide an

encompassing account of how a platform that is unfailingly polished and ruthlessly judgmental shapes us and our environments. They examine how personalities, relations, social movements, urban subcultures, and city streets change as they are represented on Instagram. Interviews and ethnographic vignettes render an intimate account of the desires and anxieties that animate the platform. Just as importantly, Boy and Uitermark reveal how Instagram is implicated in social inequalities. While previous accounts have argued that social media promote polarization, *On Display* shows that this is not the case for Instagram, where users belong to large and diverse networks, compelling them to take many often contradictory expectations into account. This means users shy away from producing statements or images that may cause offense as a way to preserve their public image and their social connections. Drawing on sociological theory, long term qualitative inquiry in Amsterdam, and computational analyses, Boy and Uitermark argue that grasping the power of Instagram and other social media platforms requires seeing them not as digital networks of communication and sharing, but as a stage for the expression and affirmation of social status.
