## Information Retrieval Evaluation in

**a Changing World** Nicola Ferro,Carol Peters,2019-08-13 This volume celebrates the twentieth anniversary of CLEF the Cross Language Evaluation Forum for the first ten years and the Conference and Labs of the Evaluation Forum since and

traces its evolution over these first two decades CLEF's main mission is to promote research innovation and development of information retrieval IR systems by anticipating trends in information management in order to stimulate advances in the field of IR system experimentation and evaluation. The book is divided into six parts. Parts I and II provide background and context with the first part explaining what is meant by experimental evaluation and the underlying theory and describing how this has been interpreted in CLEF and in other internationally recognized evaluation initiatives. Part II presents research architectures and infrastructures that have been developed to manage experimental data and to provide evaluation services in CLEF and elsewhere. Parts III IV and V represent the core of the book presenting some of the most significant evaluation activities in CLEF ranging from the early multilingual text processing exercises to the later more sophisticated experiments on multimodal collections in diverse genres and media. In all cases the focus is not only on describing what has been achieved but above all on what has been learnt. The final part examines the impact CLEF has had on the research world and discusses current and future challenges both academic and industrial including the relevance of IR benchmarking in industrial settings. Mainly intended for researchers in academia and industry it also offers useful insights and tips for practitioners in industry working on the evaluation and performance issues of IR tools and graduate students specializing in information retrieval.

**Hermann Hesse's Global Impact** Oscar Von Seth, 2024 A timely collection of new essays arguing for the continuing relevance and impact of Hesse's works around the world. Hermann Hesse remains one of the great figures of world literature. He is the world's 35th most translated author with more than 1 500 translations of his works currently listed on UNESCO's Index Translatorium. Our understanding of the reciprocal transcultural reception of literature has been radically transformed in the last two decades starting with David Damrosch's *What is World Literature* 2003. Meanwhile some forty years have passed since Martin Pfeifer's anthology *Hermann Hesse's weltweite Wirkung*. Hermann Hesse's Worldwide Impact was published which means it is time to consider Hesse's global impact again though not in terms of a country by country study. Rather this book explores Hesse's continuing global relevance more broadly. Hesse is global in the sense that his themes touch on the non material side of human existence in a way that readers in different cultural communities respond to. His prose and poetry offer an oasis of calm authenticity and spirituality a mental terrain of profound and genuine meaning. The present collection of new essays argues that this spiritual capital may help readers of Hesse in uncertain times beyond the doctrines of organized religions or ideologies assisting them in inhabiting creatively both the world of literature and the visceral world of the early 21st century. Edited by Ingo Cornils and Neale Cunningham. Contributors Flavia Arzeni, Zhan Chunhua, Thomas Cyron, Helga Esselborn, Krumbiegel, Carina Gröner, Karl Josef Kuschel, Thomas Taro Lennerfors, Volker Michels, Christopher Newton, Shrikant Arun Pathak, John Pizer, Adam Roberts, Oscar von Seth, Christiane Schonfeld, Laszlo V. Szabo, Girishsha Ameya Tilak, Jennifer Walker, Yoichi Yamamoto, Michal Zawadzki, International Studies, Scott Straus, Barry Driscoll, 2018-09-10. The challenge of teaching international studies is to help you think coherently about the multiple causes

and effects of global problems In International Studies Global Forces Interactions and Tensions award winning scholars Scott Straus and Barry Driscoll give you a clear framework that pinpoints how key factors forces interactions and tensions contribute to world events with both global and local consequences The authors first show you how to look for common patterns in global issues by introducing four world shaping forces global markets shifting centers of power information and communications technologies and global governance They systematically trace how these forces prompt interactions among world actors and thus give rise to a set of tensions that spur key challenges The framework enables you to ask and answer for yourself Who is interacting Where did such interactions develop What policies or institutions govern them Why are they getting certain global and local reactions You are then apply the framework to the global problems that matter most to you human rights abuses economic inequality terrorism forced migration pandemics and global health responses climate change food security and more International Studies raises the bar for the Introduction to IS course moving beyond interdisciplinary and into the realm of critical analysis to increase student relevancy and motivation

*Everything for Everyone* Nathan Schneider, 2018-09-11 The origins of the next radical economy is rooted in a tradition that has empowered people for centuries and is now making a comeback A new feudalism is on the rise While monopolistic corporations feed their spoils to the rich more and more of us are expected to live gig to gig But as Nathan Schneider shows an alternative to the robber baron economy is hiding in plain sight we just need to know where to look Cooperatives are jointly owned democratically controlled enterprises that advance the economic social and cultural interests of their members They often emerge during moments of crisis not unlike our own putting people in charge of the workplaces credit unions grocery stores healthcare and utilities they depend on Everything for Everyone chronicles this revolution from taxi cooperatives keeping Uber at bay to an outspoken mayor transforming his city in the Deep South to a fugitive building a fairer version of Bitcoin to the rural electric co op members who are propelling an aging system into the future As these pioneers show co ops are helping us rediscover our capacity for creative powerful and fair democracy

[WallStreetBets](#) Jaime Rogozinski, 2020-01-30 The stock market, and by extension the greater financial system, has lost touch with its fundamental purpose for existing. There was a time when the stock market was a mechanism for growing businesses to raise money, playing a large role in the industrial revolution, boosting America to a global superpower. Today, the stock market has morphed into a high-tech system of fluctuating, arbitrary numbers which are used by individuals and industries alike to find profit opportunities by placing bets masqueraded as sophisticated financial maneuvers with fancy labels and acronyms. Nowhere is this more evident than with the tendencies observed today. There is a shocking trend by today's Millennial

generation to shamelessly and unapologetically find ways to use the stock market to place very high risk bets. And unlike formal Wall Street investment institutions, these gamblers of sorts don't attempt to disguise the game they are proud to call Wall Street a casino. Jaime Rogozinski combs through various elements of how reckless investors play Wall Street similar to a casino. He illustrates these often in playful ways using entertaining and compelling real world anecdotes. His stories are taken straight from Reddit's r/wallstreetbets community which Jaime founded in 2012 and currently has more than 800,000 followers. In addition to 3 million unique visitors a month, WallStreetBets is a forum based gathering where people are notoriously known for taking a brazen and public approach at gambling with the stock market.
