Don't Knock the Hustle S. Craig Watkins, 2019-05-07 Offers a timely analysis of the sheer ingenuity and persistence of young people who cobble together the resources they need to pursue the lives and careers they want. Young adults are coming of age at a time when work is temporary, underpaid, and incommensurate with their education or downright unsatisfying. Despite these challenges, media scholar S. Craig Watkins argues that this moment of precarity is rife with opportunities for innovation and that young adults are leading the charge in turning that into an inventive and surprisingly sustainable future. As a result, society is expanding its understanding of who we think of as innovators and what qualifies as innovation while wealth is spreading beyond traditional corridors of powerful tech companies, venture capitalism, and well-endowed universities. Drawing on over ten years of interviews and data, Watkins reveals the radical ways in which this community of ambitious young creatives is transforming businesses from the outside in. Diverse perspectives that are often ignored or silenced by major corporations are garnering public attention as women and people of color are redefining industries across the globe, all from their computer screens. We meet people like Prince Harvey, a New York-based hip hop artist who recorded his album entirely on an Apple showroom laptop; screenwriter, producer, and actor Issa Rae, who first used YouTube and Kickstarter to develop the web series that became her hit HBO show *Insecure*; the Empowerment Plan, a nonprofit organization created by product design student Veronika Scott in Detroit and start-up companies like Qeyno Group in San Francisco and Juegos Rancheros in Austin that help make tech more accessible to people of color. Forward-thinking and dynamic, *Don't Knock the Hustle* shows the diversity and complexity of a generation on the rise: a unique approach to understanding millennials that looks beyond stereotypes about their relationships with tech and labor, based on two years of MacArthur Grant-funded research, diverse audience appeal, and will reach millennials, educators, people seeking to hire millennials, and scholars of technology, media, and communication.

and labor *Brand and Talent* Kevin Keohane,2014-02-03 Few business strategy books talk about brand management and talent management under the same cover *Brand and Talent* shows how high performance organizations are using this philosophy to drive clarity and growth as they bring their purpose ambition strategy and proposition to life from the inside out In a world replete with experts in branding and brand management mirrored by experts in talent attraction engagement and development there is a clear need for far greater alignment of these two overlapping disciplines This means more than paying lip service to recruitment media campaigns masquerading as so called employer brands which can often cause damage to or dilute an organization's reputation as an enterprise is dependent upon your reputation as an employer and vice versa In *Brand and Talent* author Kevin Keohane looks at how organizations can better communicate with people before during and after their association with the enterprise He presents a joined up approach that encompasses the needs of brand marketing human resources corporate communications internal communications and IT He integrates academic and commercial evidence as well as practical advice and includes case studies and interviews *Perspectives on Purpose* Nina Montgomery,2019-02-14 *Perspectives on Purpose* brings together industry leaders to advocate for a more human centered and socially conscious future for businesses Sharing stories from their work at companies like Ben Perspectives on Impact focuses on the recalibration of social impact approaches to tackle complex humanitarian social and environmental challenges
