Gift-Giving in Japan Katherine Rupp, 2003 Gift giving is extremely important in Japanese society not only at personal and household levels but at the national and macroeconomic levels as well This book is the first in English to document the extraordinary scale complexity and variation of giving in contemporary Japan Gift Giving in Japan is based on eighteen months fieldwork in the Tokyo metropolitan area as well as short term research in other parts of Japan The core of the study is the experience of family representatives of different ages classes genders occupations neighborhoods and religions The author also interviewed experts including the author of gift giving etiquette books Buddhist and Shinto priests department store and funeral home employees and workers at Tokyo's Tsukiji fish market She participated in neighborhood festivals election rallies house building rites and other ceremonies of which gift giving was an integral part Recent anthropological interest in drawing a strong contrast between commodities and gifts both reflects and reinforces the conception of the gift as part of the giver and the related distinction between the realm of the gift and the realm of the marketplace The author argues that Japanese practices of giving and receiving challenge assumptions related to this idea of the gift Interpreting

Material Culture in Modern Diplomacy from the 15th to the 20th Century Harriet Rudolph, Gregor M. Metzger, 2016-12-05 The present volume aims at outlining a new field of research with regard to the history of diplomacy the material culture of diplomatic interaction in early modern and modern times The material culture of diplomacy includes all practices in foreign policy communication in which single artifacts samples of artifacts or else the whole material setting of diplomatic interaction is supposed to be constitutive for creating an intended effect in terms of diplomatic objectives The chapters of this volume focus on intercultural diplomacy in different regions of the world wherein diplomatic actors of various kinds might have been confronted by a whole universe of unfamiliar artifacts and artifact related practices Most of them concentrate on gift giving as a diplomatic practice that offers multiple insights in the complex dynamics of diplomatic relations between representatives of culturally highly diverse political entities In doing so they gainfully apply different theoretical approaches of material culture as an interdisciplinary field of study to the investigation of diplomatic cultures across the globe As a result it becomes obvious that future research into the history of diplomacy should take into account material practices much more thoroughly than has been done before

Guth, 2025-09-09 A beautifully illustrated history of one of the most important cultural categories in Japan The Japanese term meibutsu refers to things of the highest cultural value evolving over time to encompass both craft and fine art high and low culture and manufactured and natural items Material goods designated as meibutsu range from precious art objects to regional products like bamboo baskets and ceramics Exemplary Things traces the history of this epistemic classificatory system in Japanese culture from its elite origins in the fifteenth century to its commercial appropriation today Christine Guth explores the use of meibutsu to designate famous things especially in the elevated context of tea practice the term's institutionalization and its popularization through print media and replicas utsushi and discusses how the term was used in critiques of the extravagance associated with collecting these costly treasures She looks at the intertwined histories of meibutsu swords incense and tea utensils focusing on their identities and agency as things with personal names Guth explains how meibutsu evolved from a culture of tributes taxes and gift giving associated with a sense of place into a term essential to cultural literacy and how Japan's modern legislation for the protection of its

national treasures kokuh drew on this legacy With stunning illustrations Exemplary Things casts the art history of Japan in a new light showing how the concept of meibutsu blurs the lines between economic value cultural and aesthetic worth and the furtherance of political power Published in association with the P Y and Kinmay W Tang Center for East Asian Art at Princeton University
