Girls Aggression In Child Welfare Social Work:

The Handbook of Social Work and Social Development in Africa Mel Gray,2016-10-26 All recent books on international social work mention Africa only briefly and few engage with the broader field of development studies This book focuses solely on the unique African context engaging with issues relating to social work and development more broadly thus enabling a deeper examination and more complex and nuanced picture to emerge Unlike most academic works this book highlights multiple practitioner voices with authors or co authors that have recently been or are currently practising social workers As an edited book it draws from both academic research as well as lived practice experience supported by strong theoretical positioning and guidance in introductory chapters drawing on African literature wherever possible Looking at case studies from Lesotho Botswana Kenya Zimbabwe Ethiopia Namibia Uganda Nigeria Kenya South Africa Rwanda Zambia and Tanzania and covering established areas of practice such as child protection working with older people working with people with disabilities mental health and mainstream services targeting women as well as emerging areas of developmental social work practice such as humanitarian assistance in post conflict situations work with immigrants and refugees and the training of community based workers this book takes a future oriented perspective that aims to move beyond well worn critiques to envision constructive and sustainable futures for social work and social development in Africa from a critical perspective

Girls, Aggression, and Intersectionality Krista Mcqueeney,Alicia Girgenti-Malone,2018-01-19 From media images of mean girls to the disproportionate punishment of Black Latina and or queer girls in schools and the justice system female aggression has become a public concern Scholars educators policymakers and parents are scrambling to respond to the perceived upsurge in girls bullying peer pressure and aggression violence Girls Aggression and Intersectionality examines how intersecting social identities such as race ethnicity class sexuality age and others shape media representations of and criminal justice reactions to female aggression The book focuses on three overarching questions How do race class and or sexuality influence media images of female aggression How do aggressive girls intersecting identities affect law enforcement and criminal justice responses to their aggression How are diverse groups of girls trying to resist their labelling and criminalization Using intersectionality as a conceptual framework this insightful volume deconstructs a unitary analysis of female aggression and transforms the mainstream discourse that paints girls as inherently mean Girls Aggression and Intersectionality will appeal to undergraduate and postgraduate students as well as postdoctoral researchers interested in fields including Gender Studies Women s Studies Youth Studies Criminology and Media and Culture

[Fighting for Girls](#) Meda Chesney-Lind,Nikki Jones,2010-09-03 Have girls really gone wild Despite the media fascination with bad girls facts beyond the hype have remained unclear Fighting for Girls focuses on these facts and using the best data available about actual trends in girls uses of violence the scholars here find that by virtually any measure available incidents of girls violence are going down not up Additionally rather than attributing girls violence to personality or to girls becoming more like boys

Fighting for Girls focuses on the contexts that produce violence in girls demonstrating how addressing the unique problems that confront girls in dating relationships families school hallways and classrooms and in distressed urban neighborhoods can help reduce girls use of violence Often including girls own voices contributors to the volume illustrate why girls use violence in certain situations encouraging us to pay attention to trauma in the girls pasts as well as how violence becomes a tool girls use to survive toxic families deteriorated neighborhoods and neglectful schools **The Woman Patient** Malkah

Notman,2012-12-06 This volume continues some of the issues raised in Volume 2 and focuses more closely on therapeutic intervention The theoretical discussion of aggression provides a background for the presentation of patterns of aggression and violence affecting women as well as possible connections between physical and emotional symptoms and indirect expressions of aggression The section on aggression against and by women is an extension of some of the content of The Woman Patient Volume 1 e.g. the chapter on rape Theoretical and clinical views that are not often linked in this fashion are included here because we are interested in understanding the development of a self concept that incorporates the constructive aspects of aggression as well as an understanding of violence In this context loss abandonment delinquency and child and adolescent suicide are also extensions of these issues The chapters that follow address aspects of symptom formation and concepts of illness There is as yet no definitive explanation for why women experience certain illness patterns more or less than men Current considerations have been reviewed but these do not answer They are a beginning on which we must build It is apparent that any discussion of these subjects better elucidates the complexity if it includes an intermingling of general problems with concrete symptoms Those specific problems that are usually thought of as psychological such as depression and behaviors such as substance abuse provide a focus for understanding wider issues

The Child: a Monthly Journal of Child Welfare David R. Blyth,1912 **Critical Perspectives on Child Sexual Exploitation and Related Trafficking** M. Melrose,J. Pearce,2013-09-05 This volume is the first major exploration of the issues relevant to young people who are affected by sexual exploitation and trafficking from a variety of critical perspectives Issues include accommodation gangs migrant and refugee communities perpetrators international policy and the language through which we construct child exploitation

Violence in Context Todd I. Herrenkohl,2011 Edited by four leading violence researchers this book takes a systemic view offering a critical appraisal of research and theory that focuses on violence in youth families and communities

Child Protection Chris Beckett,2007-05-09 This textbook provides students and practitioners with a broad introduction to and critical analysis of the complex issues involved in child protection work Beckett unpacks these complexities in a clear and engaging way all the time encouraging reflection and debate through case examples and interactive exercises back cover

Girl Child and Family Violence Promilla Kapur,1993 Child Abuse Charlotte Kenton,1981 **Girls' Aggression in Child Welfare Social Work** Jane F. Gilgun, Ph.d.,2015-09-22 We wrote this series of blogs on girls aggression for child welfare social workers The information is also useful to other service

providers educators and parents About three million cases of child abuse and neglect are reported each year and one million cases are substantiated These children have experienced complex trauma which is a series of adversities that are so upsetting that they affect mood attention and emotional health and also threaten healthy social emotional and neurological development Children with complex trauma such as physical and verbal abuse in combination with loss and abandonments are at risk to behave in aggressive ways Child welfare social workers therefore routinely provide services to children and their families where the children have issues with aggression The goal of service to young people who have issues with aggression is to foster their self compassion that in turn leads to compassion for others The development of self compassion arises through experiences of being treated with compassion This means building relationships with young people In this blog series we recommend relational interviews which are of means encouraging young people to talk about what is important to them With the establishment of trust reduction of aggression and increases in prosocial behaviors are possible African American young people are over represented in child welfare caseloads and are also over represented in cases of aggressive behaviors suspensions expulsions and school dropouts Child welfare social workers therefore negotiate complex issues related to race ethnicity gender trauma and school policies when they provide services to young clients who behave in aggressive ways How child welfare social workers respond to young people can influence the quality of their lives and the quality of the lives of others such as other students teachers siblings parents and neighbors If the aggression is not addressed effectively during the younger years young people may grow into adults when their aggression may harm their children other family members and people in their neighborhoods and communities Furthermore there is a well documented maltreatment to prison pipeline for boys as well as girls The rates of abuse and neglect among young people in juvenile corrections and prisons are far higher than in the general population Child welfare social workers are positioned to affect policies and programs through direct work with young people and with school personnel They can engage in relational interviews with parents and school staff in order to replace punitive polices with relational and restorative polices Our purposes are to raise awareness of issues and interventions related to aggression in schools and other settings and to encourage child welfare social workers to take leadership in policies for young people who act out in aggressive ways Far too often school policies and policies in other settings are punitive rather than restorative and silencing of students rather than inviting them into relationship through dialogue We spotlight girls aggression because in national and understandable concerns for boys aggression girls are often overlooked Our writing of this series of blogs is based on several goals among them keeping everyone safe and the promotion the optimal development of young people This includes targets bystanders and persons who act in aggressive ways Our concerns extends to the affects of aggression on school climate and the climate of other settings in which aggression occurs In schools aggression affects the safety of students and staff It also affects learning and the capacities of young people to develop healthy peer relationships Aggression has similar affects in other
