Social Reading Cultures on BookTube, Bookstagram, and BookTok Bronwyn Reddan, Leonie Rutherford, Amy Schoonens, Michael Dezuanni, 2024-04-30 This book examines the reading cultures developed by communities of readers and book lovers on BookTube Bookstagram and BookTok as an increasingly important influence on contemporary book and literary culture. It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers. The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices bookish social media has elevated the agency and visibility of readers and book consumers within literary culture. It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture. Concise and accessible this introduction to an increasingly central set of literary practices is essential reading for students and scholars of literature, sociology, media and cultural studies as well as teachers and professionals in the book and library industries.

Driscoll, 2024-02-21. Shining a spotlight on everyday readers of the 21st century, Beth Driscoll explores how contemporary readers of Anglophone fiction interact with the book industry, digital environments, and each other. We live in an era when book clubs, bibliomemoirs, Bookstagram, and BookTok are as valuable to some readers as solitary reading moments. The product of nearly two decades of qualitative research into readers and reading culture, *What Readers Do* examines reading through three dimensions: aesthetic, conduct, moral, conduct, and self-care, to show how readers intertwine private and social behaviors and how they reinforce and oppose the structures of capitalism. Analyzing reading as a post-digital practice that is a synthesis of both print and digital modes and on- and offline behaviors, Driscoll presents a methodology for studying readers that connects book history, literary studies, sociology, and actor network theory. Arguing for the vitality, agency, and creativity of readers, this book sheds light on how we read now and on how much more readers do than just read. [Fail-Proof](#)

Starnes, 2024-03-19. Todd Starnes is a fierce defender of freedom and a great patriot. He has seen and understands what is happening to our country like few others. His book is absolutely terrific, a must-read. President Trump, President Biden ushered

in a dark winter of malaise across our great nation He snuffed out Lady Liberty's bright beacon of hope and brought despair to the land And now we stand at a time of great choosing Do we choose the path that leads to freedom or the path that leads to tyranny We face difficult days but not hopeless days Together we can restore the Republic and reclaim our standing in the world But first we must remember our roots and return to the values that made our nation great A deep and abiding desire for freedom and liberty girded by faith in God is the essence of who we are Those are the precepts that must be reaffirmed if America is to be saved
