*Post-Apocalyptic Cultures* Julia Urabayen, Jorge León Casero, 2024-03-19 This book advocates for the necessity of recovering the value of utopias as political projects that open new channels of action. However this edited collection seeks to show that the post apocalyptic world in which we live entails a renewed freedom of design for the radical reorganization of institutions. Post apocalyptic cultures are not obligated to follow the capitalist anthropocentric correlationist and sovereign modes of the old political project of emancipation the Western enlightenment that has started to collapse. The post apocalyptic offers audiences a portal to a fantasy world that is at once strange and familiar offers a high degree of internal consistency and completeness and allows for a diversity of stories by different creative teams in the same story world. With case studies of franchises such as The Walking Dead and The Terminator Transmedia Storytelling and the Apocalypse offers analyses of how shifts in media industries and reception cultures have promoted a new kind of open world building narrative across film television video games and print. For transmedia scholars and fans of the genre this book shows how the end of the world is really just the beginning
