Climate Mobility Justice

Elena Giacomelli,Pierluigi Musarò,2025-11-08 This book explores how the intertwined challenges of climate change and human im mobilities are being narrated governed and resisted From media and policies to art and activism the book investigates the stories we tell and the ones we silence about who moves who stays and who tries to govern human mobilities

What emerges is a powerful critique of crisis narratives that legitimize fear repression and exclusion and a call for new imaginaries grounded in justice care and planetary belonging Engaging with voices from the Global South Indigenous epistemologies and feminist and decolonial thought this book offers a bold rethinking of how to confront one of the defining issues of our time It is essential reading for anyone interested in the future of climate politics migration and global solidarity

Making Sense of Society Alex Khasnabish,2022-05-30T00:00:00Z Grounded in the sister disciplines of sociology and anthropology this textbook is an accessible and critical introduction to contemporary social research Alex Khasnabish eschews the common disciplinary silos in favour of an integrated approach to understanding and practising critical social research Situated in the North American context the text draws on cross cultural examples to give readers a clear sense of the diversity in human social relations It is organized thematically in a way that introduces readers to the core areas of social research and social organization and takes an unapologetically radical approach in identifying the relations of oppression and exploitation that give rise to what most corporate textbooks euphemistically identify as social problems Focusing on key dynamics and processes at the heart of so many contemporary issues and public conversations this text highlights the ways in which critical social research can contribute to exploring understanding and forging alternatives to an increasingly bankrupt violent unstable and unjust status quo

**Alienation,**

**Apocalypse and the Postmodern Condition in "I am Legend" by Richard Matheson** Maximilian Rütters,2021-09-07 Seminar paper from the year 2015 in the subject American Studies Literature grade 2 3 University of Bonn language English abstract The work that will be focused on the novel I Am Legend by Richard Matheson brings together the idea of the last living human on earth and the myth of vampires The author shows the theories of the novel that are hidden between the lines

These theories are on the one hand easy to find and very obvious but on the other hand they have to be decoded word by word To be more specific I will try to show that the condition of alienation is one of the main topics in Matheson s writing Moreover I will show some postmodern aspect of the novel and why it is so fascinating to read apocalyptic writings The novel may be written in 1954 and set in the late 1970s but it can be a model for current interpretations of the apocalypse since apocalyptic writings make sense of bad things and are coping with situations in which people feel helpless **Britannica**
