**Evicted** Lisa T. Alexander,2017 Matthew Desmond s Evicted Poverty and Profit in the American City is a triumphant work that provides the missing socio legal data needed to prove why America should recognize housing as a human right This Essay argues that Desmond s mostly federal legal prescriptions are insufficient to help all Americans realize the full promise of the human right to housing American cities should also enact local ordinances that legitimate new housing arrangements in order to fully realize the human right to housing Part I argues that Evicted s stories show that the law operates differently in poor housing markets than in traditional markets and that poor residents are differently situated in low income housing markets based upon their age sex gender race and ethnicity Evicted also reveals that poor tenants and their landlords make informal bargains that often undermine the goals of numerous housing related laws and sacrifice poor residents dignity Part II builds on Desmond s legal and policy prescriptions by providing examples of how cities can codify the right to housing at the local level through resolutions and

ordinances that legitimate more equitable housing arrangements Part II further asserts that the right to housing is a legal tool that can help localities manage and effectively internalize the mounting economic and social costs of increasing inequality in American housing markets

**Fear and Fury** Heather Ann Thompson, 2016-01-27 In this masterful groundbreaking work Pulitzer Prize winning author Heather Ann Thompson shines surprising new light on an infamous 1984 New York subway shooting that would unveil simmering racial resentments and would lead in unexpected ways to a fractured future and a new era of rage and violence. On December 22, 1984, in a graffiti covered New York City subway car passengers looked on in horror as a white loner named Bernhard Goetz shot four Black teens: Darrell Cabey, Barry Allen, Troy Canty, and James Ramseur at point blank range. He then disappeared into a dark tunnel. After an intense manhunt and his eventual surrender in New Hampshire, the man the tabloid media had dubbed the Death Wish Vigilante would become a celebrity and a hero to countless ordinary Americans who had been frustrated with the economic fallout of the Reagan 80s. Overnight Goetz's young victims would become villains. Out of this dramatic moment would emerge an angry nation in which Rupert Murdoch's New York Post and later Fox News Network stoked the fear and the fury of a stunning number of Americans. Drawing from never before seen archival materials, legal files, and more, Heather Ann Thompson narrates the Bernie Goetz Subway shootings and their decades long reverberations while deftly recovering the lives of the boys whom too many decided didn't matter. *Fear and Fury* is the remarkable account and a searing indictment of a crucial turning point in American history.

**Segregation by Design** Catalina Freixas, Mark Abbott, 2018-10-24 This book discusses racial segregation in American cities. Using St. Louis as a point of departure, it examines the causes and consequences of residential segregation and proposes potential mitigation strategies. While an introduction, timeline, and historical overview frame the subject, nine topic-specific conversations between invited academics, policy makers, and urban professionals provide the main structure. Each of these conversations is

contextualized by a photograph an editors note and an essay written by a respected current or former St Louisan The essayists respond to the conversations by speaking to the impacts of segregation and by suggesting innovative policy and design tactics from their professional or academic perspective The purpose of the book therefore is not to provide original research on residential segregation but rather to offer a unique collection of insightful transdisciplinary reflections on the experience of segregation in America and how it might be addressed
