**Innovation - Correct Answer** An improvement of an existing technological product, system, or method of doing something.

**Invention - Correct Answer** A new product, system, or process that has never existed before, created by study and experimentation.

**Design Brief - Correct Answer** A written plan that identifies a problem to be solved, its criteria, and its constraints. The design brief is used to encourage thinking of all aspects of a problem before attempting a solution.

**Design Process - Correct Answer** A systematic problem-solving strategy, with criteria and constraints, used to develop many possible solutions to solve a problem or satisfy human needs and wants and to winnow (narrow) down the possible solutions to one final choice.

**Construction Line - Correct Answer** Thin lines that serve as guides while sketching or drawing.

**Hidden Line - Correct Answer** A line type that represents an edge that is not directly visible, because it is behind or beneath another surface.

**Isometric Sketch - Correct Answer** A form of pictorial sketch in which all three drawing axes form equal angles of 120 degrees with the plane of projection.

**Multiview Drawings - Correct Answer** Views of an object projected onto two or more orthographic planes.

**Object Line - Correct Answer** A heavy solid line used on a drawing to represent the outline of an object.

**Oblique Sketch - Correct Answer** A type of sketch involving a combination of a flat, orthographic front with depth lines receding at a selected angle, usually 45 degrees.

**Orthographic Projection - Correct Answer** A method of representing three-dimensional objects on a plane having only length and breadth. Also referred to as Right Angle Projection.

Rudolph,2022-12-20 Few people question the importance of science

education in American schooling The public readily accepts that it is the key to economic growth through innovation develops the ability to reason more effectively and enables us to solve the everyday problems we encounter through knowing how the world works Good science teaching results in all these benefits and more or so we think But what if all this is simply wrong What if the benefits we assume science education produces turn out to be an illusion nothing more than wishful thinking In *Why We Teach Science* and *Why We Should* former high school teacher and historian of science education John L Rudolph examines the reasons we ve long given for teaching science and assesses how they hold up to what we know about what students really learn or don t learn in science classrooms and what research tells us about how people actually interact with

science in their daily lives The results will surprise you Instead of more and more rigorous traditional science education to fill the STEM pipeline Rudolph challenges us to think outside the box and makes the case for an expansive science education aimed instead at rebuilding trust between science and the public something we desperately need in our current era of impending natural challenges and science denial *PERT Study Guide 2020* Miller Test Prep,2019-10 Techniques ,2004 Final Exam Study Guide ,2003 PT Final Exam Will Crane,2021 Plan Exam Practice Questions Plan Exam Secrets Test Prep,2014-03-31 PLAN Exam Practice Questions are the simplest way to prepare for the PLAN test Practice is an essential part of preparing for a test and improving a test taker s chance of success The best way to practice taking a test is by going through lots of practice test questions Taking lots of practice tests helps ensure that you are not surprised or disappointed on your test day Our PLAN Exam Practice Questions give you the opportunity to test your knowledge on a set of questions You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses Detailed answer explanations are also included for each question It may sound obvious but you have to know which questions you missed and more importantly why you missed them to be able to avoid making the same mistakes again when you take the real test That s why our PLAN Exam Practice Questions include answer keys with detailed answer explanations These in depth answer explanations will allow you to better understand any questions that were difficult for you or that you needed more help to understand *PERT Study Guide 2021-2022* Trivium,2020-08-24 Updated for 2021 Trivium Test Prep s unofficial NEW PERT Study Guide 2021 2022 Exam Prep Review and Practice Questions for the Florida Postsecondary Education Readiness Test isn t your typical exam prep Because we know your time is limited we ve created a product that goes beyond what most study guides offer With PERT Study Guide 2021 2022 you ll benefit from a quick but total review of everything tested on the exam with current real examples graphics and information These easy to use materials give you that extra edge you need to pass the first time FLDOE was not involved in the creation or production of this product is not in any way affiliated with Trivium Test Prep and does not sponsor or endorse this product Trivium Test Prep s PERT Study Guide 2021 2022 offers A full review of what you need to know for the PERT exam Practice questions for you to practice and improve Test tips to help you score higher Trivium Test Prep s PERT Study Guide 2021 2022 covers Math Reading Writing and includes a FULL practice test About Trivium Test Prep Trivium Test Prep is an independent test prep study guide company that produces and prints all of our books right here in the USA Our dedicated professionals know how people think and learn and have created our test prep products based on what research has shown to be the fastest easiest and most effective way to prepare for the exam Unlike other study guides that are stamped out in a generic fashion our study materials are specifically tailored for your exact needs We offer a comprehensive set of guides guaranteed to raise your score for exams from every step of your education from high school to college or the military to
