**Evidence-Based Validation of Herbal Medicine** Pulok K. Mukherjee, 2015-02-17 Evidence Based Validation of Herbal Medicines brings together current thinking and practice in the areas of characterization and validation of natural products. This book reviews all aspects of evaluation and development of medicines from plant sources including their cultivation, collection, phytochemical and phyto pharmacological evaluation and therapeutic potential. Emphasis is placed on describing the full range of evidence based analytical and bio analytical techniques used to characterize natural products including omic technologies, phyto chemical analysis, hyphenated techniques and many more. Includes state of the art methods for detecting, isolating and performing structure elucidation by degradation and spectroscopic techniques. Covers biosynthesis, synthesis and biological activity related to natural products. Consolidates information to save time and money in research. Increases confidence levels in quality and validity of natural products. *Evidence Based Validation of Traditional Medicines* Subhash C. Mandal, Raja Chakraborty, Saikat Sen, 2021-01-18

The demand for traditional medicines, herbal health products, herbal pharmaceuticals, nutraceuticals, food supplements and herbal cosmetics etc is increasing globally due to the growing recognition of these products as mainly non toxic, having lesser side effects, better compatibility with physiological flora and availability at affordable prices. In the last century, medical science has made incredible advances all over the globe. In spite of global reorganization and a very sound history, the promotion of traditional medicine faces a number of challenges around the globe, primarily in developed nations. Regulation and safety is the high concern for the promotion of traditional medicine. Quality issues and quality control, pharmacovigilance, scientific investigation and validation, intellectual property rights and biopiracy are some key issues that restrain the advancement of traditional medicine around the globe. This book contains diverse and unique chapters explaining in detail various subsections like phytomolecule, drug discovery and modern techniques, standardization and validation of traditional medicine and medicinal plants, safety and regulatory issue of traditional medicine, pharmaceutical excipients from nature plants for future. The contents of the book will be useful for the academicians, researchers and people working in the area of traditional medicine. **Quality Control and**
