But the company has taken a big leap forward with the third generation Echo Show 10. Its fresh design and the manufacturing company's continued focus on improving the overall user experience has made the smart speaker feel fresh and differentiate itself from the previous model. The first thing you'll notice about the Echo Show 10 3rd Generation is its new design. The 10-inch HD screen is attached to a base that looks like a small round version of its Echo Studio speaker. The new look feels modern and elevates the screen further when you move it around. The feature is a built-in 13-megapixel camera which can track your movement and turn the smart screen to follow you.
