Teaching in Nursing - E-Book Diane M. Billings, Judith A. Halstead, 2015-10-31 Set yourself up for success as a nurse educator with the award winning Teaching in Nursing A Guide for Faculty 5th Edition Recommended by the NLN for comprehensive CNE prep this insightful text is the only one of its kind to cover all three components of teaching instruction curriculum and evaluation As it walks through the day to day challenges of teaching readers will benefit from its expert guidance on key issues such as curriculum and test development diverse learning styles the redesign of healthcare systems and advancements in technology and information This new edition contains all the helpful narrative that earned this title an AJN Book of the Year award along with updated information on technology empowered learning the flipped classroom interprofessional collaborative practice and much more Coverage of concept based curricula includes strategies on how to approach and implement concept based lessons Extensive information on online education discusses the use of webinars and other practical guidance for effective online instruction Evidence

based teaching boxes cover issues such as how to do evidence based teaching applications of evidence based teaching implications for faculty development administration and the institution and how to use the open ended application questions at the end of each chapter for faculty guided discussion Strategies to promote critical thinking and active learning are incorporated throughout the text highlighting various evaluation techniques lesson planning insights and tips for developing examinations Updated research and references address forward thinking approaches to education and trends for the future Guidance on teaching in diverse settings addresses topics such as the models of clinical teaching teaching in interdisciplinary settings how to evaluate students in the clinical setting and how to adapt teaching for community based practice Strong focus on practical content including extensive coverage of curriculum development equips future educators to handle the daily challenges and opportunities of teaching NEW Chapter on Interprofessional Education and Collaborative Practice focuses on the collaboration of care across patient care providers emphasizing clear communication and shared patient outcomes NEW Renamed unit on Curriculum as a Process better reflects the latest QSEN competencies and other leading national standards NEW Renamed unit on Technology Empowered Learning covers the use of technology for learning including non traditional course formats active learning flipped classrooms and more The Digital Turn in Higher Education David Kergel,Birte Heidkamp,Patrik Kjærdsdam Telléus,Tadeusz Rachwal,Samuel Nowakowski,2017-10-24 The book deals with the digital turn in higher education One aim of this book is to address the challenge by providing a multi disciplinary international perspective on higher education during the digital turn It presents epistemological ethical and theoretical approaches and best practice examples from universities in different countries using different learning strategies The book can be understood as an international and interdisciplinary collection providing heuristic strategies for handling the digitalization of higher education in theory and in practice **Digital Media and Social Connection in the Lives of Children, Adolescents and Families** Yalda Uhls,Kaveri Subrahmanyam,Amanda Third,2022-11-29 *Using Technology to Support Learning and Teaching* Andy Fisher,Kate Exley,Dragos Ciobanu,2014-01-03 The climate of Higher Education is changing rapidly The students are more likely to see themselves as consumers and have increasingly high expectations regarding teaching and learning Universities are in part aiming to meet this need by increasing the use of technology for example whether to increase access to teaching materials outside the classroom or to make lectures more interactive Although there is no illusion amongst Higher Education intuitions that technology is a panacea it is clear that technology is a vital tool in meeting expectations and one that will be used more and more Consequently the context of this book is one in which technology needs to be understood as part of an overall teaching practice Technology continues to move on a pace and is used increasingly within Higher Education to support and enhance teaching and learning There are books which are steeped in technical detail and books which are steeped in theoretical pedagogy with little discussion about the impact on learning and student teacher behaviour *Using Technology to Support Learning and Teaching* fills a gap in the market by

providing a jargon free but pedagogically informed set of guidance for teaching practitioners who wish to consider a variety of ways in which technology can enrich their practice and the learning of their students It integrates a wide range of example cases from different kinds of HE institutions and different academic disciplines illustrating practicable pedagogies to a wide range of readers It is full of advice hints and tips for practitioners wanting to use technology to support a style of teaching and learning that is also built on sound pedagogical principles It will provide a quick user friendly reference for practitioners wanting to incorporate technology into Higher Education in a way that adheres to their learning principles and values This book is primarily for teaching practitioners particularly those who are new to the industry This book would also prove useful on training courses for practitioners such as the Postgraduate Certificate for Higher Education The authors also intend that the book be of value to newer teachers perhaps taking teacher training programmes who wish to see where recommended approaches link to pedagogy
