Children's Literature Rebecca J. Lukens,2007 Designed to facilitate the use of children s books from all genres this exceptional resource helps teachers librarians and media specialists select the best children s literature for the classroom library or home Unlike an anthology of children s literature which includes selected chapters or text summaries the Eighth

Edition of this highly regarded book teaches how to select quality children's literature. Using the critical standards for all literature, examples of children's books provide the basis for an explanation of critical principles and special issues in judging books for children. Taking readers through the definitions of literary terms such as plot, character, theme, setting, point of view, style and tone, Lukens provides sound criteria for assessing the merit of children's books. The book also includes chapters on rhymes, poetry, biography and informational books. A new and enlarged section addresses censorship and a new chapter addresses the benefits of reading and its significance for children and its growth in popularity among adults.
