Section 1 selectively covers the main areas of phonetics and phonology without going into any area in more depth than the average English language teacher requires or that the average English language teacher trainee can handle. Section 2 focuses on practical issues related to learners and how they learn languages and what represents good practice in terms of classroom activities for pronunciation including aspects such as targets, motivation and priorities. The chapters end with activities to help the reader understand concepts. Section 3 provides innovative sample activities which put into practice the theoretical points covered in the first two sections, answers to the various exercises, recommended further reading, both print and non print, a glossary of technical phonetic terms and a bibliography of works on pronunciation teaching. The text is accompanied by a Companion Website with audio recordings of model pronunciations and audio material relating to the activities.

The Handbook of English Pronunciation Marnie Reed, John M. Levis, 2015-04-28. The Handbook of English Pronunciation presents a comprehensive exploration of English pronunciation with essential topics for applied linguistics researchers and teachers including language acquisition, varieties of English, historical perspectives, accent, changing role and connections to discourse, technology and pedagogy. Provides thorough descriptions of all elements of English pronunciation. Features contributions from a global list of authors reflecting the finest scholarship available. Explores a careful balance of issues and topics important to both researchers and teachers. Provides a historical understanding of the importance of pronunciation and examines some of the major ways English is pronounced today throughout the world. Considers practical concerns about how research and practice interact in teaching pronunciation in the classroom.

Handbook of Central Auditory Processing Disorder, Volume II, Second Edition Gail D. Chermak, Frank E. Musiek, 2013-11-06. Chermak and Musiek's two volume award winning handbooks are back in newly revised editions. Extensively revised and expanded, Volume II provides expanded coverage of rehabilitative and professional issues detailing intervention strategies for children and adults. Volume I provides comprehensive coverage of the auditory neuroscience and clinical science needed to accurately diagnose the range of developmental and acquired central auditory processing disorders in children, adults and older adults. Building on the excellence achieved with the best selling 1st editions which earned the 2007 Speech Language and Hearing Book of the Year Award, the second editions include contributions from world renowned authors detailing major advances in auditory neuroscience and cognitive science, diagnosis, best practice intervention strategies in clinical and school settings as well as emerging and future directions in diagnosis and intervention. Exciting new chapters for Volume II include Evidence Supporting Auditory Training in Children by Jeffrey Weihs, Gail D Chermak, Frank E Musiek and Teri James Bellis; School Policies, Process and Services for Children with CAPD by Georgina T F Lynch and Cynthia M Richburg; Historical Foundations: Pioneers by James W Hall III and Anuradha R Bantwal; Remediation of Spatial Processing Issues in CAPD by Sharon Cameron and Harvey Dillon; The Dichotic Interaural Intensity Difference (DIID) Training by Jeffrey Weihs and Frank E Musiek; Considerations for the Older Adult Presenting Peripheral and Central
