Eco-Mathematics Education Nataly Chesky, Jack Milgram, 2021-10-18 Eco Mathematics Education strives to show how everyone can experience the embedded connection between mathematics and the natural world. The authors sincere hope is that by doing so we can radically change the way we come to understand mathematics as well as humanity's place in the ecosystem. The book hopes to accomplish this by providing in depth lesson plans and resources for educators and anyone interested in teaching and learning mathematics through an ecological aesthetic perspective. All lessons are based on the inquiry method of teaching aligned to standards incorporate art projects inspired by famous artists and utilize recycled and or natural materials as much as possible.

The Multi-age Learning Community in Action Barbara Cozza, 2017-09-18 As schools struggle to teach all students the multi age teaching and learning framework has emerged as one of today's most effective ways to structure schools. Multi age Learning Community MAC Program is a professional development program in action. It presents a framework that can transform schools from a graded system to a multi age learning environment. This multi age school targets students individual and personal needs and allows students to excel and succeed. The school reform climate today focuses on schools of choice and building effective school environments. This multi age program creates a unique school niche that is marketable to families. Parents have the option of sending their children to schools that concentrate on achievement that best meets the needs of the learner without disrupting the mandates of the curricula. This book is intended to assist educators at all levels of all school organizations as well as give policymakers educators and parents the information on an effective school program. This book gives information on how to transform schools into multi age classrooms. This book is divided into four parts that explain both the theory and the practice of effective strategies for the multi age school program. Organizational Practice Building Culture Learning Processes and Assessment and Systemic Improvement. There are specific basic principles and practices that are integrated into a quality and effective framework discussed in the chapters of this book. Each chapter begins with a vignette based on my experiences in multiage schools and concludes with an educator's reflection to recap the concepts in the chapter. Each chapter also integrates snapshots that are short real to life passages that bring to life concepts discussed in the chapter. Although this book discusses multi age schools these ideas may be applied to all school environments. To accommodate all school programs at the end of each chapter a section titled Application for All Schools is a framework that discusses just how to apply chapter concepts in any school or classroom program. It is recommended that the reader review the book one time in sequence and then reread each chapter as needed to give meaning to the reader's purpose.

Handbook of Research on Learner-Centered Approaches to Teaching in an Age of Transformational Change Bromer, Billi L., Crawford, Caroline M., 2022-06-24 Institutions of education are in an age of transformational change in which learning has a wider scope of understanding and long term impact than ever before. Those involved in teaching and learning require additional training and subject matter support towards

developing a broader and more profoundly complex understanding of the learners affected by evolving sociological events and associated needs More than ever a broader understanding of the learner is needed inclusive of a learner centered approach to both teaching and learner cognitive engagement The Handbook of Research on Learner Centered Approaches to Teaching in an Age of Transformational Change examines the abundant transformational changes that have occurred and provide strategies to understand and address them It draws from a wide range of experts and provides a burgeoning understanding of the effects of these rapidly moving transformational changes that are occurring in the processes of teaching and learning Exploring a wide range of issues such as community engagement scholarship motivation driven assignment design and trauma informed practices this major reference work is an invaluable resource for educators of K 12 and higher education educational faculty and administration pre service teachers government officials non profit organizations sociologists libraries researchers and academicians
