Designing for Democracy Jennifer Forestal, 2022 How should we fix digital technologies to support democracy instead of undermining it In *Designing for Democracy* Jennifer Forestal argues that accurately evaluating the democratic potential of digital spaces means studying how the built environment a primary component of our modern public square structures our activity shapes our attitudes and supports the kinds of relationships and behaviors democracy requires While many scholars and practitioners are attentive to the role of design in shaping behavior they have yet to fully engage with the question of what structures are required to support democratic communities and how to build them Forestal closes this gap by providing a new theory of democratic space Drawing from a wide range of disciplines including architecture psychology and the history of political thought she argues that democratic spaces must be designed with three environmental characteristics boundaries durability and flexibility that taken together afford users the ability to engage in fundamental civic practices Through extended analyses of Facebook Twitter and Reddit Forestal shows precisely how well these digital platforms meet the criteria for democratic spaces or whether they do so at all The result is a more nuanced analysis of the democratic communities that form or fail to emerge in these spaces as well as more concrete suggestions for how to improve them In connecting the built environment digital technologies and democratic theory *Designing for Democracy* provides blueprints for democracy in a digital age

Invisible Rulers Renée DiResta, 2024-06-11 An essential and riveting Jonathan Haidt account of the small communities of propagandists revolutionizing politics culture and society *Invisible Rulers* is about a profound transformation in power and influence that is altering our politics our local government and even our relationships with friends and neighbors Today small communities of propagandists increasingly shape public opinion and even control our relationship to the truth Our shared reality has splintered into discrete bespoke realities driven by algorithms influencers and curated content Very little can bridge the divide thereby making democratic consensus nearly impossible to achieve Ren e DiResta exposes how these propagandists and their followers undermine the institutions that make society work from anti vaccine zealots who flood social media with fringe viewpoints to influencers who use AI generated images to manipulate our perception of reality She also provides readers with a new conception of civics that helps us understand and fight back against these new invisible rulers

Current Biography Yearbook ,2009 **The Social Media Strategist: Build a Successful Program from the Inside Out** Christopher Barger,2011-12-20 Build a powerful social media strategy to increase buzz and the bottom line Whether you re

Fortune 500 or a small business owner if you're looking for success in this field you owe it to yourself to read this book. George G. Smith Jr., Social Strategist at PepsiCo, after working with hundreds of organizations in their efforts to adopt social technologies, I can safely say *The Social Media Strategist* is the best guide available. Christopher Barger elevates the social media conversation with an experienced pragmatic insider's discussion about real adoption. This book should be on every corporate and agency practitioner's shelf. Geoff Livingston, author of *Welcome to the Fifth Estate* and *Now Is Gone*, this book is an absolute must read for anyone seeking to better understand how to plug social media into their business from both a strategic and an operational standpoint and should be required reading for communications and business management students around the world. Olivier A. Blanchard, author of *Social Media ROI*, *The Social Media Strategist* is refreshing because it has substance amidst a sea of social media superficiality. It will help you think strategically and realistically so you can act efficiently and creatively. If you're serious about business and committed about leveraging social media, you need to read this book. Esteban Contreras, Social Media Marketing Manager at Samsung USA, Christopher offers a refreshing point of view as a seasoned practitioner and leader in the earliest days of the social media evolution. He describes the challenges of large-scale internal change and the rewards of integrating social media business planning and he shares real-world examples of successful campaigns. Shauna Causey, Head of Social Media at Nordstrom, about the book: In today's fast-paced professional climate, large companies are learning that launching a website and taking a wait-and-see approach to engaging customers is not enough. Competition is fierce and those who master the social media space are the ones who come out on top. There is greater urgency than ever before to establish a vibrant social media program and it all starts with a key strategist who can best organize and leverage all of the organization's resources to cut through the bureaucracy and get real-time results. This is where *The Social Media Strategist* comes in. Before tackling specific social media programs, you first have to get your own organization and everyone in it on board with making social media a business strategy priority. Christopher Barger, the award-winning former social media director at General Motors and IBM's former blogger in chief, describes all the challenges particular to getting a comprehensive social media program off the ground in a large firm. *The Social Media Strategist* teaches you how to manage internal office politics from your legal team to the policy makers to the human resource department. Present new ideas to lawyers and executives in a compelling, convincing way. Teach your employees the guidelines and protocols they'll need to represent your company. Turn your organization into a true media outlet publishing content that is generated by in-house employees and is truly engaging to an outside audience. Telling a company from the outside what it should do is one thing, writes Barger. Actually making it happen from the inside is quite another. Here he takes the bold step of starting where all successful endeavors begin by planning well by putting all the moving parts in the right place by constructing a solid foundation. Consult *The Social Media Strategist* and build the best-suited social media infrastructure for your company. Then and only then can you begin to raise your profile, connect with customers and increase
