Through the identification of mythic themes, mythemes and patterns within these novels, González shows that these works evoke the female life cycle and develop current perceptions of the female maturational experience. As a result, Salcedo González makes an important contribution in establishing the cultural significance of young adult literature in the world of classical reception. These novels, all written by women, also inflect or interpret the myth in ways influenced by their contemporary contexts, specifically the impact of the novels' target readership on the aspects of the myth that are either emphasised (e.g. Persephone's descent into the underworld, her existence there and her re-ascent) or de-emphasised (e.g. the mourning and wanderings of Demeter). This book makes original methodological contributions through its innovative dual perspective of myth criticism and classical reception to our understanding of the academically neglected genre of young adult literature and the reception of the myth of Persephone. As a result, Salcedo González significantly contributes to establishing the cultural significance of young adult literature within the realm of classical reception. reexamines the use of myth in fiction in order to bring a new terminological precision into the field While concentrating on the German novel Mann Broch and Nossack he discusses the work of Alberto Moravia John Bowen Michel Butor and Macdonald Harris as well in order to show the modern predilection for myth in whatever national literature Throughout his discussion Mr White delineates carefully his specific subject the novel in which mythological motifs are used to prefigure events and character Joyce's Ulysses is of course the archetypal novel in this tradition Setting forth his terms and making clear his use of them Mr White then analyzes the wide appeal of the mythological novel for both twentieth century novelists and critics he distinguishes four ways in which modern novelists use myth and surveys the range of critical literature on the subject His concluding chapters are discussions of specific texts in which he differentiates between novels which have a unilinear parallel between myth and plot novels of juxtaposition in which chapters retelling myth parallel modern action and novels of fusion in which the action of the modern account synthesizes more than one mythic prefiguration of mythological motif Originally published in 1972 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
