[Guide to Literary Agents 2018](#) Cris Freese, 2017-09-14 No matter what you're writing fiction or nonfiction books for adults or children, securing a literary agent will help you get the best book deal possible from a traditional publisher. With listing information for more than 1,000 agents who represent writers and their books, [Guide to Literary Agents 2018](#) will be your go-to resource. This updated edition of GLA includes: A one-year subscription to the literary agent content on WritersMarket.com; New Agent Spotlights: Discover targeted profiles of literary agents who are actively building their client lists right now; Informative articles on crafting the perfect first page, attending conferences, establishing a healthy critique group, and more; A brand new special genre section on science fiction and fantasy plus online content for whatever genre you're writing; Includes exclusive access to the webinar *How to Land a Literary Agent* by agents Danielle Burby and Joanna MacKenzie of Nelson Literary Agency. **Movies and the Modern Psyche** Sharon Packer MD, 2007-09-30 By looking at the interactions between cinema and psychology, Packer offers readers clear and basic insights into some of the most fundamental reasons why film is such an important influence upon our lives today. *Movies and the Modern Psyche* first describes the basic concepts of psychoanalysis, experimental psychology, behavioral conditioning, and hypnosis, which have all played major roles in the histories of both film and psychiatry. It then goes on to discuss the recent rise in film therapy, drug treatments, treatment for drug abuse, and the closing of asylums to show how shifts in treatment techniques, theories, and settings are foreshadowed and fossilized by film. Psychology and cinema are kindred cousins born at the same time and developing together so that each influences the other. From the mind-controlling villains that occupy early horror films and Cold War thrillers like *Caligari*, *Mabuse*, and *The Ipcress File* to the asylums that house numberless political allegories and personal dramas in *Shock Corridor*, *Spellbound*, *One Flew over the Cuckoo's Nest*, and *Girl Interrupted* to the drugs, phobias, and disorders that pervade so many of our favorite films, including as a small sample *Vertigo*, *Night of the Hunter*, *Psycho*, *Rainman*, *Fight Club*, *Requiem for a Dream*, and *Batman Begins*, there is no escaping either psychology in the movies or the movies in psychology. By looking at the interactions between cinema and psychology, this book offers readers clear and basic insights into some of the most fundamental reasons why film is such an important influence upon our lives today. *Movies and the Modern Psyche* first describes the basic concepts of psychoanalysis, experimental psychology, behavioral conditioning, and hypnosis, which have all played major roles in the histories of both film and psychiatry.
