Global Leadership Marshall Goldsmith, Cathy Greenberg, Alastair Robertson, Maya Hu-Chan, 2003-04-28 The follow up to Marshall Goldsmith's 500 000 copy bestseller *The Leader of the Future*, *Global Leadership: The Next Generation* systematically identifies what tomorrow's leaders will need to know, do and believe in order to successfully lead the global enterprise of the future. Through the stories and reflections of leading businesspeople, bestselling authors and spiritual leaders, this collection offers tools for implementing this proven but radical leadership model. The book is organized into three sections: What is Servant Leadership, describes different aspects of servant leadership; Models of Servant Leadership, focuses on people who have been identified as classic servant leaders; Putting Servant Leadership to Work, features firsthand accounts of how servant leadership has been implemented in various organizations and the difference it has made in both results and human satisfaction.

The World's Most Powerful

Leadership Principle James C. Hunter, 2004-06-29 To lead is not to be the boss, the head honcho or the brass. To lead is to serve. Although serving may imply weakness to some, conjuring up a picture of the CEO waiting on the workforce hand and foot, servant leadership is actually a robust, revolutionary idea that can have significant impact on an organization's performance. Jim Hunter champions this hard/soft approach to leadership, which turns bosses and managers into coaches and mentors. By 'hard', Hunter means that servant leaders can be hard-nosed, even autocratic, when it comes to the basics of running the business, determining the mission, where the company is headed and values what the rules are that govern the journey and setting standards and accountability. Servant leaders don't commission a poll or take a vote when it comes to these critical fundamentals. After all, that's what a leader's job is and people look to the leader to set the course and establish standards. But once that direction is provided, servant leaders turn the organizational structure upside down. They focus on giving employees everything they need to win, be it resources, time, guidance or inspiration. Servant leaders know that providing for people and engaging hearts and minds foster a workforce that understands the benefits of striving for the greater good. The emphasis is on building authority, not power; on exerting influence, not intimidation. While many believe that servant leadership is a wonderful, inspiring idea, what's been missing is the how-to, the specifics of implementation. Jim Hunter
