Alter/native Modernities Dilip Parameshwar Gaonkar, 1999 To think in terms of alternative modernities is to admit that modernity is inescapable and to desist from speculations about modernity's end Modernity today is global and multiple and no longer has a Western governing center to accompany it The essays in this collection therefore approach the dilemmas of modernity from transnational and transcultural perspectives The idea of alternative modernities holds that modernity always unfolds within specific cultures or civilizations and that different starting points of the transition to modernity lead to different outcomes Without abandoning the Western discourse on the subject the contributors to this volume write from the standpoint that modernity is in truth a richly multiplicitous concept Believing that the language and lessons of Western modernity must be submitted to comparative study of its global receptions they focus on such sites as China Russia India Trinidad and Mexico Other essays treat more theoretical aspects of modernity such as its self understanding and the potential reconcilability of cosmopolitanism and diversity Description from www.dukeupress.edu Feb 15 2012
