

A DIALOGUE BETWEEN AN ATHEIST PROFESSOR & A MUSLIM STUDENT

The following scenario takes place at an educational institute:

"Let me explain the problem science has with God..." The atheist professor of philosophy pauses before his class and then asks one of his new students to stand. "You're a Muslim, aren't you, son?"

"Yes, sir."

"So, you believe in God?"

"Absolutely!"

"Is God good?"

"Sure! God's good!"

"Is God all-powerful? Can God do anything?"

"Yes."

The professor grins knowingly and considers for a moment.

"Here's one for you: Let's say there's a sick person over here and you can cure him. You can do it. Would you help him? Would you try?"

"Yes, sir. I would."

"So, you're good...!"

"I wouldn't say that."

"Why not say that? You would help a sick and maimed person if you could... In fact, most of us would if we could... God doesn't."

[No answer.]

"He doesn't, does he? My brother was a Muslim who died of cancer, even though he prayed to God to heal him. How is this God good? Hmm? Can you answer that one?"

[No answer.]

Dialogue With An Atheist 2nd:

Did Charles Bradlaugh Die an Atheist? Hypatia Bradlaugh Bonner, 1898 Dialogue with My Atheist Friend Mustafa Mahmoud, Because we do not see God because we do not know the future because the hereafter is unseen and because those who go to the grave do not return atheism has spread materialistic ideas have prevailed people have worshipped themselves and succumbed to their desires and fought over the benefits of the world thinking that there is nothing beyond this life and nothing after death The major countries have fought over the gold of the earth and its riches and disbelief has its theories materialism its philosophies denial its warriors and the deniers have a Kaaba to which they cling and to which they make pilgrimages back and forth a Kaaba they call Science In this context came this dialogue with my atheist friend addressing topics of determinism and choice resurrection destiny and judgment this book attempts to solve these puzzles from the standpoint of established science philosophy Quranic indications and belief in God Atheists Nick Spencer, 2014-05-08 The clash between atheism and religion has become the defining battle of the 21st century Books on and about atheism retain high profile and popularity and atheist movements on both sides of the Atlantic capture headlines with high profile campaigns and adverts However very little has been written on the history of atheism and this book fills that conspicuous gap Instead of treating atheism just as a philosophical or scientific idea about the non existence of God Atheists The Origin of the Species places the movement in its proper social and political context Because atheism in Europe developed in reaction to the Christianity that dominated the continent s intellectual social and political life it adopted adapted and reacted against its institutions as well as its ideas Accordingly the history of atheism is as much about social and political movements as it is scientific or philosophical ideas This is the story not only of Hobbes Hume and Darwin but also of Thomas Aitkenhead hung for blasphemous atheism Percy Shelley expelled for adolescent atheism and the Marquis de Sade imprisoned for libertine atheism of the French revolutionary Terror and the Soviet League of the Militant Godless of the rise of the US Religious Right and of Islamic terrorism Looking at atheism in its full sociopolitical context helps explain why it has looked so very different in different countries It also explains why there has been a recent upsurge in atheism particularly in Britain and the US where religion has unexpectedly come to play such a significant role in political affairs This leads us to a somewhat paradoxical conclusion we should expect to hear more about atheism in the future for the simple reason that God is back
