Wijngaards, 1986-01-01      Women Towards Priesthood Jacqueline Field-Bibb, 1991-02-22 This book charts the aspirations of women towards priesthood and the resistance that they have encountered It brings together a record of official documents and debates on the issue that takes place over the last two hundred years in the English Methodist Church the Church of England and the Roman Catholic Church These debates are interpreted at a number of levels and the author draws on sociology history biblical studies theology and psychoanalysis in the course of her presentation In the author s view it is the patriarchalisation of ecclesiastical structures and the subsequent theological and christological justification given over to this which emerges as a recurring pattern in the debate Dr Field Bibb offers a feminist analysis of such resistance to the ordination of women in an attempt to break down what she sees as the false consciousness engendered by the propagation of subversive symbols      Incompatible with God's Design Mary Jeremy Daigler, 2012-10-12 Incompatible with God s Design is the first comprehensive history of the Roman Catholic women s ordination movement in the United States Mary Jeremy Daigler explores how the focus on ordination and not merely increased participation in the life and ministries of the church has come to describe a broad movement Moving well beyond the role of such organizations as the Women s Ordination Conference this study also addresses the role of international and local groups In an effort to debunk a number of misperceptions about the movement from its date of origin to its demographic profile Daigler explores a vast array of topics Starting with the movement s historical background from the early American period through the early twentieth century to Vatican II and afterward she considers the role of women especially Catholicism s more religious adherents in the movement s evolution the organization of the ordination movement in the United States the role and response of clergy and Vatican teachings the reality of international influences on the U S movement and the full range of challenges past and present to the ordination movement Incompatible with God s Design is compelling reading for any student of theology and women s studies as well as those interested in staying abreast with the changing role of women within the U S Roman Catholic Church
