Epidemiological Studies: A Practical Guide

Alan J. Silman,Gary J. Macfarlane,Tatiana Macfarlane,2018-10-18 To successfully conduct an epidemiological study academic subject knowledge must be combined with careful consideration of the practical elements involved From an academic perspective insights into the basis of epidemiology the concepts behind how we study diseases and the challenges and limitations of the results that emerge are prioritised However the success of the academic analysis depends on how when and where the data used is collected Epidemiological Studies A Practical Guide focuses on the practical challenges of epidemiological data collection Essential topics such as how to choose the population to study how to maximise participation and retention and how to frame questions so that subjects provide the information required are the core of the material presented The book explains the

skills needed to conduct a study where data is collected and presented accurately and in appropriate formats In addition to presenting a step by step guide to epidemiological investigations the chapters in the book are accompanied by examples of how to phrase the letters and forms needed for each stage of conducting a study Focusing on measurement study designs statistics methodological issues and key skills the book provides a valuable background to epidemiological study With detailed tables and figures a clear chapter outline and a straightforward index the information presented is easily accessible and can quickly be applied to the reader s own work Extensively revised this new edition includes updates on case crossover Mendelian randomisation and case cohort New chapters have been added to reflect the areas a student is now likely to encounter in an introductory epidemiological course such as evidence synthesis use of routine data association or causation feasibility and pilot studies Epidemiological Studies A Practical Guide is ideal for students in epidemiology public health health research and health services research It is also highly relevant to post graduate research students and early stage clinical and non clinical researchers

Higher Education Computer Science Jenny Carter,Michael O'Grady,Clive Rosen,2018-09-21 There is currently a great emphasis on teaching quality in Higher Education In the UK the Teaching Excellence Framework and the National Student Survey have contributed significantly to this focus Additional support for staff to develop teaching skills has also come from the Higher Education Academy whose fellowship scheme encourages HE staff to focus on their practice in the classroom The growth in the number of students attending university has resulted in a much wider range of learning styles amongst them Many students do not fit the idealised average of being adept at learning from primarily text based media Two further trends are also driving change and innovation in academic staff teaching The first is the availability of online teaching materials such as MOOCs The second is the emphasis now given to student postgraduate employability represented by certain aspects of the Teaching Excellence Framework that require students not only to know information but also to be able to articulate that knowledge and to demonstrate their skills With a desire to enable our students to achieve their highest potential many staff undertake initiatives to facilitate learning that accommodate a wide range of learning styles This book focuses on approaches to teaching and learning within the discipline of Computer Science The book consists of a selection of chapters that describe a particular teaching activity or topic within Computing in HE presented in such a way that other practitioners can adopt and adapt them as a way of helping them to develop their own teaching It provides a number of practical cases of putting theory into practice when teaching Computer Science to both undergraduate and postgraduate students in Higher Education institutions A chapter on the importance of developing soft skills and a professional online presence is also included as an essential part of preparing the students for their future employment
