*Flourishing in Museums* Kiersten F. Latham, Brenda Cowan, 2023-12-19 *Flourishing in Museums* presents the Flourishing Museum Framework, an interdisciplinary model for reflection and practice. Illustrated via a diversity of international examples, the framework demonstrates how museums can meaningfully address the many challenges facing the profession. Including contributions from a wide range of scholar practitioners working across the arts, humanities, sciences, education, business and mental health disciplines, the volume uses abundance thinking and takes a strengths based, appreciative approach to museum purpose, function and being. The book demonstrates that even within the most difficult climates, abundance oriented methods and perspectives can inspire and elicit flourishing in visitors, staff and communities, thus positioning museums as places where people find meaningful and purposeful work and where visitors find satisfaction, meaning, inspiration and motivation. Drawing from the disciplines of positive psychology, positive organizational scholarship, contemplative studies and museum studies, the book is unified and organized into six thematic areas that comprise the Flourishing Museum Framework: courage, transformation, care, optimism, gratitude and delight. *Flourishing in Museums* will be essential reading for academics and students working in the museum and heritage fields, as well as the cognate disciplines of arts management and creative industries. It will also be useful to practitioners working in museums and heritage sites around the world.
