## Cambridge History Book Britain:

*The Cambridge History of the Book in Britain* David McKitterick,2009      **The Cambridge History of the Book in Britain: Volume 1, c.400-1100** Richard Gameson,2019-09-19 This is the first comprehensive survey of the history of the book in Britain from Roman through Anglo Saxon to early Norman times The expert contributions explore the physical form of books including their codicology script and decoration examine the circulation and exchange of manuscripts and texts between England Ireland the Celtic realms and the Continent discuss the production presentation and use of different classes of texts ranging from fine service books to functional schoolbooks and evaluate the libraries that can be associated with particular individuals and institutions The result is an authoritative account of the first millennium of the history of books manuscript making and literary culture in Britain which intimately linked to its cultural contexts sheds vital light on broader patterns of political ecclesiastical and cultural history extending from the period of the Vindolanda writing tablets through the age of Bede and Alcuin to the time of the Domesday Book      *The Cambridge Illustrated History of the British Empire* P. J. Marshall,2001-08-02 Up to World War II and beyond the British ruled over a vast empire Modern western attitudes towards the imperial past tend either towards nostalgia for British power or revulsion at what seem to be the abuses of that power The Cambridge Illustrated History of the British Empire adopts neither of these approaches It aims to create historical understanding about the British empire on the assumption that such understanding is important for any informed appreciation of the modern world Through striking illustration and a text written by leading experts this book examines the experience of colonialism in North America India Africa Australia and the Caribbean as well as the impact of the empire on Britain itself Emphasis is placed on social and cultural history including slavery trade religion art and the movement of ideas How did the British rule their empire Who benefited economically from the empire And who lost      **A Companion to the History of the Book** Simon Eliot,Jonathan Rose,2009-03-30 A COMPANION TO THE HISTORY OF THE BOOK A COMPANION TO THE HISTORY OF THE BOOK Edited by Simon Eliot and Jonathan Rose As a stimulating overview of the multidimensional present state of the field the Companion has no peer Choice If you want to understand how cultures come into being endure and change then you need to come to terms with the rich and often surprising history Of the book Eliot and Rose have done a fine job Their volume can be heartily recommended Adrian Johns Technology and Culture From the early Sumerian clay tablet through to the emergence of the electronic text this Companion provides a continuous and coherent account of the history of the book A team of expert contributors draws on the latest research in order to offer a cogent transcontinental narrative Many of them use illustrative examples and case studies of well known texts conveying the excitement surrounding this rapidly developing field The Companion is organized around four distinct approaches to the history of the book First it introduces the variety of methods used by book historians and allied specialists from the long established discipline of bibliography to newer IT based approaches Next it provides a broad chronological survey of the

forms and content of texts The third section situates the book in the context of text culture as a whole while the final section addresses broader issues such as literacy copyright and the future of the book Contributors to this volume Michael Albin Martin Andrews Rob Banham Megan L Benton Michelle P Brown Marie Frangoise Cachin Hortensia Calvo Charles Chadwyck Healey M T Clanchy Stephen Colclough Patricia Crain J S Edgren Simon Eliot John Feather David Finkelstein David Greetham Robert A Gross Deana Heath Lotte Hellinga T H Howard Hill Peter Kornicki Beth Luey Paul Luna Russell L Martin Ill Jean Yves Mollier Angus Phillips Eleanor Robson Cornelia Roemer Jonathan Rose Emile G L Schrijver David J Shaw Graham Shaw Claire Squires Rietje van Vliet James Wald Rowan Watson Alexis Weedon Adriaan van der Weel Wayne A Wiegand Eva Hemmungs Wirt n

**The Cambridge Social History of Britain, 1750-1950** F. M. L. Thompson, 1990

Whilst in certain quarters it may be fashionable to suppose that there is no such thing as society historians have had no difficulty in finding their subject The difficulty rather is that the advance has occurred through such an outpouring of research and writing that it is hard for anyone but the specialist to keep up with the literature or grasp the overall picture In these three volumes as is the tradition in Cambridge Histories a team of specialists has assembled the jigsaw of recent monographic research and presented an interpretation of the development of modern British society since 1750 from three complementary perspectives those of regional communities of the working and living environment and of social institutions Each volume is self contained and each contribution thematically defined contains its own chronology of the period under review Taken as a whole they offer an authoritative and comprehensive view of the manner and method of the shaping of society in the two centuries of unprecedented demographic and economic change

*The Cambridge History of the Book in Britain*: David McKitterick, 2014-03-20 The years 1830-1914 witnessed a revolution in the manufacture and use of books as great as that in the fifteenth century Using new technology in printing paper making and binding publishers worked with authors and illustrators to meet ever growing and more varied demands from a population seeking

books at all price levels The essays by leading book historians in this volume show how books became cheap how publishers used the magazine and newspaper markets to extend their influence and how book ownership became universal for the first time The fullest account ever published of the nineteenth century revolution in printing publishing and bookselling this volume brings the Cambridge History of the Book in Britain up to a point when the world of books took on a recognisably modern form

Morgan,John Barnard,Donald Francis McKenzie,Joseph Burney Trapp,Rodney M. Thomson,Richard Gameson,Maureen Bell,David McKitterick,Michael F. Suarez,Michael L. Turner,1998 The history of the book offers a distinctive form of access to the ways in which human beings have sought to give meaning to their own and others lives Our knowledge of the past derives mainly from texts Landscape architecture sculpture painting and the decorative arts have their stories to tell and may themselves be construed as texts but oral tradition manuscripts printed books and those other forms of inscription and incision such as maps music and graphic images have a power to report even more directly on human experience and the events and thoughts which shaped it The seven volumes of the History of the Book in Britain will help explain how these texts were created why they took the forms they did their relations with other media and what influence they had on the minds and actions of those who heard read or viewed them Its range too in time place and the great diversity of the conditions of text production including reception challenges any attempt to define its limits and give an account adequate to its complexity It addresses whether by period country genre or technology widely disparate fields of enquiry each of which demands and attracts its own forms of scholarship The Cambridge History of the Book in Britain seeks to represent much of that variety The volumes investigate the creation material production dissemination and reception of texts effectively plotting the intellectual history of Britain Publisher description
