**How to Make Money Online** Larry Elliott Bussey, 2010-08-16 HOW TO MAKE MONEY ONLINE EBOOK CREATION FOR ENTREPRENEURS DO IT LIKE THE BIG DOGS When you hire for a writer for your ebook what you are doing is enlisting the services of a ghostwriter A ghostwriter is a writer who publishes under

someone else's name with the consent of both parties. Its legal and writers are available to provide the service. The straightest route to ebook profits is in the nonfiction ebook market. Fiction is making a story. Journalism is finding one. That's the big difference. When I am writing a book I am usually dealing with events or ideas that have already arranged themselves in memory. With nonfiction you need to find your prospective before time has arranged it. The trick is to write about something as if you've been thinking about it for 10 years. Larry Bussey resides in Las Vegas, Nevada. He's an expert on Internet Marketing and Ghostwriting. He has successfully pinned numerous books as a ghostwriter. Larry Bussey makes it his business to be aware of the latest developments in his field as a Pro Internet Marketer, Blogger, Social Media Marketer, Business Expert, Social Marketing Trainer, and Consultant. Larry Bussey prides himself as being a thought leader in social media who likes to inspire others to use new media to create positive change in their lives. Readers of his ebooks write from all over the globe to ask for marketing advice and to share their own success stories.

Are you looking for a best practices guide to developing policies and procedures for acquisition, purchase, collection, development, cataloging, and retention of e-books? Chapters on budgeting and licensing cover ownership versus leasing models, the differences in licensing options from the major publishers and aggregators, including information on digital rights management and strategies for success in retention, access, and budgeting. The cataloging and selection chapters are the largest in the book. The selecting e-books chapter discusses e-book purchasing models, file formats, and publisher/aggregator e-book platforms. An examination of display devices, e-readers, the technical and access services section gives you best practices in cataloging e-books to include metadata. Insight on incorporating value-added features such as adding excerpts from the text, book covers, and links to related resources. Guidance on library web page and online catalog access. Assessment and evaluation strategies through circulation statistics, print collection selection and usage, and user satisfaction.
