**Thin Description** John L. Jackson Jr., 2013-11-04 The African Hebrew Israelites of Jerusalem are often dismissed as a fringe cult for their beliefs that African Americans are descendants of the ancient Israelites and that veganism leads to immortality But John L Jackson questions what fringe means in a world where cultural practices of every stripe circulate freely on the Internet In this poignant and sophisticated examination of the limits of ethnography the reader is invited into the visionary sometimes vexing world of the AHIJ Jackson challenges what Clifford Geertz called the thick description of anthropological research through a multidisciplinary investigation of how the AHIJ use media and technology to define their public image in the twenty first century Moving beyond the modest witness of nineteenth century scientific discourse or the thick descriptions of twentieth century anthropology Jackson insists that Geertzian thickness is impossible especially in a world where the anthropologist's subjects craft their own self ethnographies and critically consume the ethnographer's offerings Taking as its topic a group situated along the fault lines of several diasporas African American Jewish Thin Description provides an account of how race religion and ethnographic representation must be understood anew in the twenty first century lest we reenact old mistakes in the

Yonique Campbell,2020 This book critically explores the impact of national security violence and state power on citizenship rights and experiences in Latin America and the Caribbean Drawing on cross country analyses and fieldwork conducted in two garrisons a middle class community and among policy elites in Jamaica where high levels of violence in security and transnational organized crime are transforming state power the author argues that dominant responses to security have wider implications for citizenship The security practices of the state often result in criminalization police abuse violation of the rights of the urban poor and increased securitization of garrison spaces As the tension between national security and citizenship increases there is a centrality of the local as a site where citizenship is re defined mediated interpreted performed and given meaning While there is a dominant security discourse which focuses on state security individuals at the local level articulate their own narratives which reflect lived experiences and the particularities of socio political milieu Yonique

Campbell is Lecturer of Public Policy and Management in the Department of Government University of the West Indies Jamaica Her research focuses on security violence state legitimacy and substantive citizenship in Latin America and the Caribbean La Moneda De Oro / The Gold Coin Alma Flor Ada, 1996-09-01 Juan is a thief who is determined to steal Dona Josefa's gold coin When she sets off to travel he follows her Along the way he meets many people that Dona Josefa has helped through her kindness and generosity and slowly begins to mend his ways Full page illustrations depict the warmth and beauty of the Central American countryside Text copyright 2004 Lectorum Publications Inc
