Bergoglio was a highly unusual candidate for the papacy for two main reasons the pope from far away is the first non European to be elected and furthermore he began his career as a Jesuit one of God's soldiers Members of the order traditionally do not ascend the hierarchy of the Church and it took a personal request from Pope John Paul II for Bergoglio to leave the Society of Jesus and accept his appointment as bishop Bergoglio's theological principles have been profoundly shaped by these two factors However the author also reveals that the evolution of his thought was deeply affected by his simple Argentinean upbringing and his fearless work in the slums of Buenos Aires as a young Jesuit and as a senior member of the Church Bergoglio has consistently emphasised the importance of alleviating the suffering of the poor following the teaching of Vatican II and in keeping with his own unflinching morality This volume reveals Pope Francis as remarkably humble and altruistic man doctrinally conservative and engaged less in politics than in the struggle to re-centre the Church at the margins of society It will be of great interest to any reader who wishes to know more about this inspiring individual

Index to Latin American Periodical Literature Columbus Memorial Library, 1961 *Towards an Atlas of the History of Interpreting* Lucía Ruiz Rosendo, Jesús Baigorri-Jalón, 2023-02-22 The aspiration of an Atlas is to cover the whole world by compiling cartographical material representing territories from across the five continents This book intends to contribute to that ideally comprehensive yet always unfinished Atlas with pieces gathered from all of the Earth's regions However its focus is not so much of a geographical nature although maps and geographical reflections are not absent in its pages but of a historical analytical one As such the Atlas engages in the historical analysis of interpreters of both language and cultures in multiple interpreting settings and places including in zones which are less frequently studied in specialized literature in different historical periods and at various scales All the interpreters described in the book share the ability to speak two or more languages and to use them as vehicles otherwise their individual socio professional statuses vary so much that there is no similarity between a Venetian dragoman in Istanbul and a prisoner of war or between a locally recruited interpreter and a missionary Each contributor has approached the specific spatial and temporal dimensions of their subject as perceived through their different methodological lenses This multifaceted perspective which is expected to provide fertile soil for future interdisciplinary research has been possible thanks to a balanced combination of scholars from History and from Translation and Interpreting Studies The Old English Version of Bede's Ecclesiastical History of the English People Saint Bede (the Venerable), 1898 **Ramon J.
