the hills of Vermont let it be this one I'd call this story the masterpiece of the tyrant of terror H P Lovecraft Stephen King referred to Arthur Machen's The Great God Pan the best horror story ever written With the greatest of respect to the Master of Horror The Whisperer in Darkness actually made me afraid to sleep with the lights off It frightened me so much I even get chills every time someone mentions Vermont to me Lovecraft put a lot of thought into his monsters As he wrote this piece in 1931 classic creatures like Frankenstein and Dracula had been around for decades He needed to come up with something creative to horrify his readers He sure did in this one Here's his description of the beasts They were pinkish things about five feet long with crustaceous bodies bearing vast pairs of dorsal fins or membranous wings and several sets of articulated limbs and with a sort of convoluted ellipsoid covered with multitudes of very short antennae where a head would ordinarily be

Location 10753 After reading this mummies zombies and witches don't seem so scary they're also much better looking The narrator of the story cited a written account of the creatures I liked how the author managed to work in some setting Briefly summarized it hinted at a hidden race of monstrous beings which lurked somewhere among the remoter hills in the deep woods of the highest peaks and the dark valleys where streams trickle from unknown sources

Location 10760 This sure isn't the Vermont I remember from the Newhart show Lovecraft came up with an exceptional plot for this story Albert N Wilmarth a professor at Miskatonic University received a series of letters from Henry Wentworth Akeley a resident of the hills the creatures inhabit In each missive Akeley described with accelerating intensity how he feared for his life Here's an excerpt from one of his last I think I am going crazy It may be that all I have ever written you is a dream or madness It was bad enough before but this time it is too much They talked to me last night talked in the cursed buzzing voice and told me things that I dare not repeat to you I heard them plainly over the barking of the dogs and once where they were drowned out a human voice helped them Keep out of this Wilmarth it is worse than either you or I ever suspected They don't mean to let me get to California now they want to take me off alive or what theoretically and mentally amounts to alive not only to Yuggoth but beyond that away outside the galaxy and possibly beyond the last curved rim of space I told them I wouldn't go where they wish or in the terrible way they propose to take me but I'm afraid it will be no use My place is so far out that they may come by day as well as by night before long Six more dogs killed and I felt presences all along the wooded parts of the road when I drove to Brattleboro today

Location 11180 Now here's where the story really got scary What follows is a section of a letter Akeley sent to Wilmarth a few days later It gives me great pleasure to be able to set you at rest regarding all the silly things I've been writing to you I say silly although by that I mean my frightened attitude rather than my descriptions of certain phenomena In the past I have warned you not to come to see me Now that all is safe I take pleasure in rescinding that warning and inviting you Bring along that phonograph record and all my letters to you as consultative data we shall need them in piecing together the whole tremendous story You might bring the Kodak prints too since I seem to have mislaid the negatives and my own prints in all this recent excitement

Location 1294 The professor accepted the invitation Apparently

instructors at Miskatonic don't share the acumen of their Harvard counterparts

contada por Albert N Wilmarth un profesor de literatura de la Universidad de Miskatonic en Arkham Cuando periodistas locales aseguraron que se habían visto cosas extrañas flotando en los ríos durante la inundación histórica de Vermont Wilmarth se ve envuelto en la controversia sobre el significado real de los avistamientos aunque él está del lado de los escépticos que culpan a las viejas leyendas sobre monstruos viviendo en las colinas inhabitadas que raptan a quienes se aventuran demasiado cerca de su territorio
