Football and International Relations under Francoism, 1937-1975 Juan Antonio Simón, 2024-10-03 This book shines a light on the specific role football played in relation to the international relations of the Franco regime in mid twentieth century Spain In the 35 years of the dictatorship of General Francisco Franco sport specifically football as the main mass sport was often used as a tool at the service of the political and diplomatic interests of the regime and this volume analyses how Franco's government mainly through its Ministry of Foreign Affairs used football as part of its foreign policy strategy to promote the international image of the dictatorship Prestige international tours and friendly matches the European successes of Real Madrid CF and of the national team and the organisation of sporting events such as the 1964 European Nations Cup were used as instruments to strengthen the country's geopolitical interests This book responds to an important bibliographical gap that exists in relation to both research on Franco's regime and the study of the role that sport played under Franco and in comparison with other totalitarian regimes such as fascism and Nazism Football and International Relations under Francoism 1937-1975 is an ideal resource for academics in sports history football history and

entries for each of the paintings studied including information on their provenance condition restoration history related literature iconography visual sources and critical fortunes It features a total of 99 paintings executed on different supports and in various media which span all the stages of his production except the period following his return to Naples in 1702 This catalogue is the result of many years of thorough research conducted by its author Andrés Bieda de los Cobos Deputy Director for Conservation and Research at the Museo del Prado He is a specialist on Luca Giordano and has published various articles and books on the artist's works such as a study on the fresco of the Apotheosis of the Spanish Monarchy in the Cas n del Buen Retiro in 2008 a project which in a sense has been brought to a successful completion by this book **Golden**

Spain While the Immaculate Conception only became dogma in 1854 as early as 1616 the Spanish Monarchy became a staunch supporter of the theory turning its defence into a national priority In the following years the Immaculate Conception became Spain s most heartfelt devotion and a sign of national identity Art played an important role in this process amounting to what we may describe as a marketing campaign This will be the focus of the Museo de Bellas Artes forthcoming exhibition featuring more than 50 paintings sculptures prints and books borrowed from notable Spanish museums and churches such as the Museo Nacional de Escultura de Valladolid the Cathedral of Seville the Biblioteca Nacional de España and many others
